

STRONGER Together

Building a more connected community

Socially Connected Communities: Strengths, Weaknesses, Opportunities, and Threats Analysis

Please make notes on this "SWOT Analysis" worksheet from the perspective of your organization. We will have the opportunity to further discuss in a large group, as well as how we can work together to meet community needs.

Strengths What do we do well? What strengths do we bring to the partnership?	Weaknesses What changes can we make? Where do we need support?
Opportunities How can we accelerate or deepen our impact in the community?	Threats What are we worried about?

What data if any do we have regarding the social and emotional wellbeing of those we serve?
